EDUCATION

Aston University

Birmingham, United Kingdom

MSc in Information Systems & Business Analysis

2023 - 2024 | Honours: Merit

Ramrao Adik Institute of Technology

Navi Mumbai, India

Bachelor of Technology in Electronics Engineering

2018 - 2022 | CGPA: 7.44/10

SKILLS

- **Technical:** React, JavaScript, Angular, HTML5, CSS, Tailwind
- **Other:** Python, SQL, REST APIs, Power BI
- **Tools:** Git, Figma, Jira, VS Code
- **Strengths:** Creative Thinking, Problem-Solving, Time Management, Attention to Detail, Adaptability, UI Precision, Fast Learning, Strong Communication, Team Collaboration

CERTIFICATIONS

- React – **Codecademy**
- AI - **Great Learning**
- Microsoft Power BI Data Analyst – **Microsoft**
- SQL for Data Science – **Coursera**
- Jira Fundamentals Badge – **Atlassian**

PROFESSIONAL SUMMARY

React Developer with hands-on experience building responsive, user-focused web interfaces. Skilled in React, JavaScript, modern UI development, API integration, and component-based architecture. Known for writing clean, reusable code and collaborating effectively within Agile teams. Experienced across enterprise systems, automation solutions, and full-stack workflows.

WORK EXPERIENCE

Jun 2022 – Jan 2023

Rejolut Technology Solutions, Mumbai, India.

React Developer

- Engineered scalable front-end features using React, focusing on component reusability and clean architecture.
- Delivered pixel-accurate pages by converting Figma/UI designs into production-ready views.
- Implemented API integrations, ensuring smooth communication between UI and backend services.
- Took part in Agile routines, assisting with QA, troubleshooting, and sprint delivery improvements..

PROJECT

Smart Crypto Dashboard

- Developed a responsive React dashboard with interactive charts and dynamic cryptocurrency price visualisation.
- Integrated real-time crypto data (Bitcoin, etc) via CoinGecko API for live insights.
- Built reusable components and implemented advanced filtering and dark/light mode for enhanced UX.
- Styled with Tailwind CSS/Material-UI for a modern, professional interface.

XeniPay

- Built front-end screens using React, including dashboards, forms, and cards.
- Integrated REST APIs to display real-time wallet and transaction data.
- Implemented routing, component reuse, and responsive design for a smooth user experience.

INTERNSHIP

AH Classics | Sept 2023 – Nov 2023 | England, UK

React Developer Intern

- Collaborated with designers to optimise layouts, visual hierarchy, and user navigation flows.
- Improved performance, accessibility, and cross-browser compatibility, delivering a seamless user experience.
- Developed responsive React components, enhancing UI adaptability across desktop, tablet, and mobile devices.
